

LED Outdoor Emergency Egress Lighting With Night Lighting

Linear LED outdoor egress with emergency lighting, night lighting and Self-test diagnostics with all Battery Backup (BB) models. A dramatic new and compact architectural design, providing powerful emergency and normal lighting for over-door and other exterior locations, The lamp housing and canopy are fabricated from extruded aluminum, in enamel finishes, with rugged sealed diffuser lens and stainless hardware, for wall or ceiling mount. High efficiency LEDs and full 90° cut-off provide uniform emergency and night lighting on the extended egress pathway. All models are outdoor rated, UL wet location, ADA compliant, and exceed requirements of UL Standard 924 and NFPA 101. Designed and manufactured in the USA.

FEATURES

- Extremely low profile, formed aluminum housing. Custom colors are available, including brushed aluminum finishes.
- Uniform elongated lighting pattern over required path of Egress.
- Full 90° cut-off.
- Three versions are available: RE(Central Battery), BB(Battery Backup), and AC(120/277VAC supply)
- Normal-on switch allows timed control of night lighting
- IP66 housing seals against heavy water spray and fine dust ingress
- Wide lighting distribution designed for entrance walkways.
- Standard CRI 5000K, with optional color corrections filters for 2900K, 3200K and 3800K.
- American manufactured major components comply with ARRA (American Recovery and Reinvestment Act) requirements and Buy American provisions.

ELECTRONICS

- Self-Test/Self-Diagnostic operation is standard in battery backup versions.
- Line latch circuit prevents unwanted emergency activation at installation.
- Low Voltage Disconnect prevents deep battery discharge
- High efficiency charger and Li-ion Battery
- Lamps are connected in parallel. If one lamp fails, one or more lamps will continue in operation.
- Universal 120/277 VAC input for standard battery or AC unit.
- Over 50,000 hour lamp life in normal use
- Standard Operating Temperature
BB: 0°C to 50°C
AC & RE: -40°C to 50°C

SUGGESTED SPECIFICATIONS:

Install MOONLITE™ Series MAE architectural emergency lighting fixture manufactured by Signtex Lighting, Inc. The MAE assembly shall be listed for installation in wet locations in compliance with UL 924 and IP66 standards, available as unit equipment or as a remote connected to a central battery power source. Upon loss of AC building power, lighting will be activated for a minimum of 90 minutes under battery power, in compliance with UL 924 and NFPA LSC Code 101. In remote configuration, the unit may be specified to operate continuously for security or night lighting, as required. The battery charger and power supply shall have universal input of 120/277 VAC, with brownout and LVD circuit protection. Auto battery diagnostics available for all models and shall perform all test functions specified by UL 924 and NFPA 101.
